Evaluation of
sources

Evaluation of
product files

- Verify **compliance of procurement agencies** (distributors, national procurement offices, etc.) with WHO **GSDP** standards.

- Generally **1 day preparation + 1 to 2 days/site** (depending on the size of the sites) + **2 days reporting**

- **Qualified and validated auditors** by QUAMED

- **Site visit and detailed review of documents**

- **GSDP rating + classification of observations**

Our services

- MQAS Audit
- GSDP Audit**
- Technical visit GSDP
- GMP Audit
- GMP technical visit
- Evaluation of sources
- Evaluation of product files

- Site visits: see MQAS audit
- Detailed examination of documents: see MQAS audit
- Observations: see MQAS audit (identical classification)
- **GSDP rating:** Determining the level and effectiveness of implementation and maintenance of processes and procedures

GSDP Q.A. CRITERIA		GSDP ACTIVITIES	LEVEL OBTAINED
Pillar A	General quality assurance requirements	1 QA system	2
		2 Documentation system	3
		3 Computerised systems	3

• Report:

- Determination of WHO MQAS compliance status by **nature and number of observations**
- Elaboration of the draft audit report based on the observations made and the rating
- **Sharing of the list of observations and the draft of the audit report reviewed by QUAMED** with the audited structure (4 to 5 weeks after the audit for comments and proposal of a CAPA* plan by the audited)
- Finalization and transmission of the validated final audit report to the auditee **3 weeks after receiving the CAPA plan**

• Sharing the audit report:

- Sharing of the audit report validated by QUAMED with the sponsor(s)
- Availability of the report on the **QUAMED database** (validity 3 years)
